Erasmus+
Italy - Flumeri

Between 20-28 February, 2023, I was a member of the group of students who partcipated in the mobility in Italy, within the Erasmus+ learning programme. I had the opportunity to exchange experience with students from a different country, to make friends with them, to learn as much as possible about their culture, traditions and, in turn, to share my skills and competence acquired in the Romanian school.

I also managed to improve my English language and build positive relationships by participating in various activities with the students from the schools of Flumeri and Zungoli, such as: visiting tourist attractions, painting on glass in the art workshop, singing together in the interactive music lesson and playing volleyball in the sports class .

Among the places we visited I would mention the Zungoli citadel, the Diocesan Museum of Campania and the Civic Museum of Ceramics, which impressed me with their rich history and art collections. I also enjoyed the Paternopoli Carnival, a very important local event, attended by the entire community, where I could feel the happiness, friendliness and love for traditions of the Italian people.

All in all, I could say that the Erasmus + experience has been really valuable for my education. The activities I did with the students from Italy helped me develop my general knowledge, my social, communication and inter-cultural skills. Now I can say that I have become more self-confident, more tolerant and more prepared to face challenges. I would heartily recommend my classmates to participate in an Erasmus+ group mobility organized by School No. 11 Botoșani.
