Scurtă descriere:
"Travelling Europe" este un proiect eTwinning colaborativ, dedicat promovării diversității culturale, istorice și geografice a Europei prin intermediul unei călătorii virtuale. Scopul principal al proiectului este de a dezvolta competențele lingvistice, digitale și interculturale ale elevilor, încurajând totodată cooperarea internațională și spiritul european.
Proiectul eTwinning „Travelling Europe" își propune să transforme procesul educațional într-o experiență interculturală, captivantă și interactivă. Elevii participanți din mai multe țări europene pornesc într-o călătorie virtuală prin Europa, în care explorează, analizează și prezintă destinații turistice importante, tradiții locale, gastronomie, obiceiuri și simboluri naționale.
În cadrul acestui proiect, elevii vor lucra induvidual și în echipe, pentru a crea conținut digital care redă diversitatea culturală și frumusețea continentului european.
