10th May - Our first day at Szent László ÁMK school in Baja. We met our guests: pupils and teachers as well. We presented Romania and Botoșani to our hosts and they made a presentation of Hungary and Baja.

We also visited the 3 buildings of the school. I liked the inner courtyard and the sports grounds .

The programme included an Art class and a Drama class

We had lunch at school , we ate goulsh soup and pasta with poppy seeds – atraditional dish in Hungarian schools.

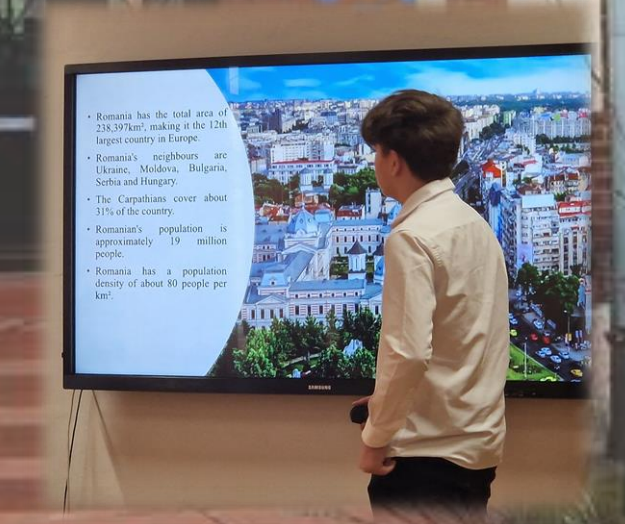

After lunch we enjoyed a train tour of Baja.

11th May

Our second day began with a non-formal activity in the Gemenc forest. Although it was a rainy day we visited the outdoor fishing museum nearby. We could see old fishing equipment, the houses where the fishermen used to store their nets and rods and other fishing tools.

Then, we had a traditional Hungarian goulash soup in a local restaurant.

12th May

Back to school for a folk dance class and a Hungarian language lesson. The History lesson took place at Türr István Museum. We found out interesting facts about the ethnic groups that live alongside the Hungarians, about their traditional costumes and crafts. The fishing collection was also impressive with its rich guilds' relics and fishing tools.

We also had an Art class - we painted some ceramic fish.. After lunch we went by cart to a nearby farm where we attended a traditional craft lesson.

14th May

The school timetable was busy, it included two English classes., we talked about our schools and about our national holidays. Another topic of discussion was about games we play during English classes.

We attended a Physics and a Geography class. The topic of the Geography class was about the Carpathian Mountains.

Our school programme ended with other 2 classes, one of Math and another one of Chemistry. After lunch we went by the Dragon boat and rowed on Sugovica river. It was an exciting experience since no one had ever rowed on a river before.

In the evening we met our Hungarian peers for a bowling contest and a slice of pizza.

15th May

Our day started with a detective game. We had to find clues in order to solve a crime –the suicide of a judge. The objective was to find if he actually committed suicide or it was a foul play.

Then we returned to school where Mrs. Timea Mihalovicsné Vajda handed our certificates of participation. We thanked our lovely hosts, said farewell and promised to keep in touch.

Thank you Saint Laszlo AMK School for making this Erasmus+ mobility possible and making unforgettable memories.
